## Real Good Times

### At Roros Picnic

Favoured with ideal weather Roros Picnic, held at the beaver dam on the Ribstone Creek was a most enjoyable able event.

The site for the picnic was well chosen combining as it does a level sport for sports of all kinds, spruce and other trees for shade, running water and the wonderful dams and houses made by Canada's emblematic animal the beaver, of which there is a large colony.

The following are the winners in the foot races:

Mens 100 yard dash—1st A. Larson 2nd H. Erickson

Boys 14 and under—1st Johnnie Nysetvold, 2nd Henry Arneson

Boys 10 years and under—Emil Nysetvold, 2nd Marvin Sagmoen.

Three legged race—1st Rayme and A. Taylor.

Girls 10 years and under—1st Bernice Lein, 2nd Minnie Anderson.

Girls 14 years and under—1st Ingrid Lundberg, 2nd Minnie Anderson

Girls 3 legged race—1st Elsie Ferguson and Thelma Villa, 2nd Mary Nysetvold and Jessie Simpson.

Ladies race—1st Miss J Simpson, 2nd Miss M. Erickson.

Several games of basket ball were (Continued on inner page)

## G.W.V.A.L.A. Notes

Regular meeting of the G.W.V.A. Aux. was held on Saturday July 31 at the G.W.V.A. Hall. Owing to the very busy times few of our country members were able to get in.

The principle business of the meeting was settling of accounts relative to the booth and lunch counter which the ladies operated at the Peace Day celebration.

A vote of thanks was accorded to Mrs. C. G. Forryan, for her assistance in the booth and also to the High School girls for their very valuable help.

The Ladies express their thanks to the Oddfellows for the loan of their dishes boilers, etc. and also to the Westminster Church Ladies Auxiliary for loan of oil stove, and to the Chauvin Womens Institute for use of dishes.

A vote of thanks was accorded to Mrs. Herbert for the gift of a quilt which was raffled. The sum realized being 30.50. The winning number being 220. The quilt has not yet been claimed, it is at Mrs. Herberts who will deliver it to owner on production of ticket bearing the winning number, 220.

Some pie plates and flags are at the G.W.V.A. hall waiting for owners.

The proceeds of the booth, which amounted to \$99 has been handed to the secretary of the G.W.V.A. as a gift from the ladies towards the work necessary to put their Hall into good shape for the winter.

## DONATIONS ARE INVITED

Donations of pie, cake, butter, and cream, etc., will be gladly received by the Chauvin Womens Institute, for use in serving luch on the grounds on Fair Day.

Eight men out of every hundred are colir blind, but only two women out of every hundred.

## Ribstone Old Timers

### At Thirteenth Picnic

Mr. Gladstone Wood will preach at Brady School on Sunday, August 22 at 3 o'clock.

On Friday afternoon the citizens of Chauvin, Edgerton, Ribstone and surrounding district turned out in full force, over 500 strong, everybody with a lunch basket, filled with enough eats for a whole family and in the real old fashioned full hearted way, in which the farmers are wont to do such a thing, spent the afternoon in celebrating.

The program consisted principally of athletics and was well carried out, and very keen but friendly rivalry was displayed. Besides foot races for ladies and gents there were jumping competitions, baseball games, horse racing, pony racing, as well as other sports.

The U.F.A. band from McCafferty was in attendance; and everyone was happy, even the base ball enthusiasts whose erstwhile pep was somewhat dampened by an unaviodable delay in drawing the game, "Thawed" out considerably at two o'clock, when the draw was made Airlie vs. Ribstone, and that the Old Timers play the winner, joyous fellows as they are hey entered into the spirit of the occasion just "like regular fellows" as "Jack" free laughingly put it. There can be no shadow of a doubt that some of the Old Timers are under the impression that the only sport, picnic or no picnic is baseball, and it was really amusing to note the earnest and serious manner the Old Timers nine sized up the eighteen contestants, who were to carry off first prize—The call for ball play was heard and the band struck up that it was a long way to Tipparary. A large crowd of spectators were now witnessing the game from the natural grand stand, a splendid elevation of natural rising of the Park with unlimited amount of shade trees was enjoyed by the visitors, with an ideal breeze fanning the spectators.

The game was going strong, the Airlie score was going into figures, the team being well made up. The game proceeded cheerfully and painstakingly regardless of the score taking another flight and information received from the score keeper the game ended in favor of the visitors.

Airlie 9  
Ribstone 0

The game was full of thrilling events but the Ribstone nine could not get onto any of the offereing of Pitcher Quam. Preston being catcher

Horse races came next, most all from surrounding districts, and although none were exceedingly speedy there were a large number of entries. There was only one bucking horse ridden, however, it was a good exhibition of rough riding. The rider, Art Wilde stuck to his mount like a postage stamp until from sheer exhaustion it ceased to struggle.

Free for all horse race—First prize Bazley horse of Edgerton; second prize to Osborne horse of LaPearl.

Both pony races went to Heasman, Ribstone—Heasman's pony Bob carrying off two first prizes. Williams' pony Copperheels—also of Ribstone—taking second in each event

Foot race, mens 200 yards—Lloyd Gregory 1st; Carl Ruty 2nd.

Girls race—Pearl Larkin 1st; Elsie Morison 2nd.

In the kiddies races there were half a dozen who got prizes, consisting of envelopes sealed with the

(Continued on inner page)

## Sports Events On

### The Program Of Chauvin Fair

A full program of sports will be a portion of the many attractions at the Chauvin Fair to be held on Friday August 13th. The program of these sports is not completed yet, but already includes a number of interesting items.

A Farmers Trotting Race (to buggy) is out of the new items. For this is offered as prizes: 1st Robe; 2nd Pair of Collars; 3rd Whip. These prizes are on exhibition at J. A. Montjoy's store.

Prizes for the Free For All Race: 1st \$25.00; 2nd \$10.00. Entrance fee being \$3.00 Four to enter and three to start. The winner to be best two out of three heats

Pony Race: 141-2 hands or under: 1st \$10.00; 2nd \$5.00. Entrance fee; \$1.00

Pony Race for children, 12 years and under: 1st Riding Bridle; 2nd Saddle Blanket; 3rd Pair of Spurs. These prizes are on exhibition at G. W. Allan & Co's store

A Baseball Tournament for the local and district school baseball team is being provided for. The prizes offered being: 1st Catcher's Glove, League Ball and Bat; 2nd League Ball; 3rd Bat These prizes are on exhibition at G. W. Allan & Co's store Boys and girls 16 years or under are eligible to take part in this tournament.

Basketball, which is increasing in public favor in this district, is being provided for. A basket ball is being offered as a first prize.

Commenting on this school teams baseball tournament, we may observe that the Airlie, Ribstone and Chauvin have teams; and the directors of the Agricultural society are hoping that other schools in the district may be able to contest this event.

We are given to understand that some fresh horses may enter the races Fair Day. According to the rumours coming forward they may be winners.

The Chauvin Womens Institute are operating the booth, and will also provided a rest room for ladies and the younger children on Fair day.

Entries for the Fair are already beginning to come in. Do not delay until too late with your entry.

## Chauvin To Battle With Lloydminster At Dina, Aug 11

A football game of real interest to all the people of Chauvin and district will be played at Dina Sports and Picnic on Wednesday, August 11th

Our team has arranged to meet Lloydminster boys there to match their prowess and strength with the strongest team on the north line. The team is working into the best of condition for the match and we look for a real good game which ever way the score ends. All supporters of sport and the good and welfare of Chauvin as well should be on hand to help the boys by their support from the side lines as well to see the big game of the year against a well seasoned team We look for a real treat in football that day

## Chauvin W. I. Notes

Mrs. Fleming, Provincial Vice-President was present at the meeting of the Chauvin Women's Institute, held on Wednesday, July 21st. She expressed her pleasure at being able to attend and gave a short address that was very much enjoyed.

She said in part that she wished that all branches were as live as the Chauvin branch and that all she could say was that "service" should be the watch word of the Institute.

She went on to tell a story of a Scotch woman who was asked to join the W.I. and she said "What will I get out o' it" and the answer she received was "just what you put into it" so that in putting our hearts into the work of the Institute we are not only helping it and the community at large but are helping ourselves.

The meeting was closed with a few pleasant little tea, after which Mrs. Fleming motored to Provost to visit the Institute there.

The C. W. I. are conducting a Grain Campaign asking every farmer to contribute a bag of grain from their next harvest towards the building of a permanent rest room for the accommodation of ladies and children from the country when visiting town which they have undertaken to erect.

The W. I. will be very pleased to accept a bag of grain or value of same towards this worthy cause.

## Ribstone W. I. Notes

The regular meting of the Women's Institute, Ribstone, was well attended and much business done re fall fair.

A prize of \$20 will be given for ball game. Children's races will be indulged in. A Lunch will be served by the ladies of the Institute. The Prize list will be ready for circulation shortly.

## Ribstone Notes

Mr. and Mrs. John Dallyn and Mr. and Mrs. Cryderman motored to Wainwright on Tuesday.

Mr. J. Osborne had the misfortune to get his shoulder put out of joint last Friday.

We are glad to report that Fred Dallyn is still doing well and expects to be home very shortly.

A new school is now being built in Ribstone, which will make a great improvement in the appearance of our town

Miss Cook has the pleasure of one of her Edmonton Friends visiting her at present.

Mr. Geo White from Unity spent a few days visiting friends around Ribstone last week

Most folks are carrying a better smile this year than last as the crops are looking fine

Miss Annie Saul was a visitor in Ribstone on Friday morning.

Mrs. Hurst spent a few days of last week with Mrs. Matt McCrea.

Ribstone sports on Friday proved a great success.

Who said Ribstone Old Timers could not play baseball; the young folks should hand the suits over to the Old Timers.

## M. D. Ribstone Council Meeting

All members of the Council present; Reeve Ferguson presiding.

Minutes of last meeting were read and approved.

Secretary reported that the Ribstone Cemetery was now laid out in plots, properly staked with white stakes and numbered; and that a plan was now in the hands of Mr. John Phippen at Ribstone for future reference.

Counc. Dumont reported some cuts and fills made on the Provost Road.

Letter was read from Women's Institute at Ribstone, and ordered filed.

Road at Semple's farm was reported completed.

Deputation—Mesdames Armour and Miller attended as a deputation from the Chauvin Agricultural Society, with reference to the grant expected for the current year. This caused some close voting; but finally, Counc. Sewell moved that the sum of \$100 be granted to the Society for this year; and an additional \$100 be granted if the district was favored with a good crop. Three voted for, and one against; and the Reeve declared the motion carried.

Petition from Prospect Valley U.F.A. was referred to Coun. Sewell.

Secretary was granted permission to appoint Miss E. M. McCluskey as Assistant Secretary, in view of the expected heavy fall work, on his own responsibility and at his own expense.

All accounts and road works time sheets were ordered paid, on the understanding that there would be sufficient cash available if the usual portion of the amounts was applied in payment of taxes.

Counc. Tunney reoprted the road at Dyer's and White's now opened to the use of the public.

The meeting then adjourned; and the date of next meeting was fixed for the 21st of August.

## Cost Of Drainage IS Prohibitive

The Village Council are in receipt of the following letter from the Department of Public Works, dated 19 July 1920.

H. N. Freeman, Esq  
Sec-treas., Village of Chauvin  
Alberta  
Sir:

As requested by you one of the Engineers from the Department made an exomination of the village to ascertain if it were in any way feasible to construct a drain to drain the ponds of water in the village

In his report he states that the cost of drainage would be prohibitive, and that he could find no route for a ditch that was in any way suitable for an outlet. I understand that ne gave you all the particulars verbally

Your obedient servant  
A. MacDONALD  
Drainage Engineer

## Dina Picnic

Don't forget the date—August 11th Horse races, running races, base-A wild steer riding contest will be one of the attractions.

Ladies please bring baskets. Dance in the School house in the evening. Good music. Come and have a good time.

He who has lost his credit is dead to the world.

## Editorial

During the past week it has been the privilege of a number of our local folk to witness the passing of a fleet of military flying machines. It is to be observed that the interest is centred in the machines themselves; and in the machines in so far as they are of practical use in ordinary everyday life.

The fact that they were U.S. planes interested us no more deeply than if they had been Canadian. Such is the deep rooted sentiment of peace between the cousin peoples.

It even requires, for us, a vivid exercise our imagination to realize that not long since these machines were missionaries of death and destruction.

In passing, may we note that the long continued peace between ourselves and our cousins to the south has not been maintained because we had no differences of interest and of opinion, but rather because we have, fortunately for all concerned been able to develop and maintain, at least in some degree, a sense of brotherhood.

The social ideals of 'brotherhood' are now beginning to find a tangible, or material expression. And this only after long centuries of the development of our civilization. To the French we are indebted for the political expression of the ideal under the motto "Fraternalite". The ideals of brotherhood are spreading through society generally. From the teachings of the Nazarene carpenter down through the ages this ideal has been spiritually expressed in a measure by the church and by fraternal societies. Later it has found expression in its economic sense in the guilds and trades union. In current commercial life we find its expression in that well worn word—"service" and in rotary clubs and such like. In Russia we find that tremendous experiment in brotherhood in the Soviet form of government, whilst at home we are seeking to set up a form of brotherhood under the form of class representation.

Doubtless the solution of the ills of human society may be obtained more easily as we increasingly recognize that we are "brothers" all.

## FOR WOMEN ONLY

It's time madam, you were brushing up on politics. In other years when the men gathered in the parlor to talk politics you would go upstairs to do some sewing. "This is no place for me," you would say, as you skipped away, taking it for granted that your mind never was made to comprehend such deep stuff as politics.

But this year you will not be able to excite yourself gracefully from political discussions in your parlor. To say that politics is "too much for you" is to admit that you are not qualified to exercise the high right which has been conferred upon you. And there are still many backward-looking men who will gladly grant you that, and rejoice to hear you make such admission.

As a matter of fact, politics is not "too much" for you. In thinking that it is, you are merely obsessed by a tradition, fostered by men. The understanding for politics call mainly for that common sense, that intuitive judgement with which many women are better equipped than their husbands. It calls for discrimination between the right and wrong of issues, in which, as you know, your judgement is frequently less erring than your husband's. "On moral issues, a woman is five times right to a man's one," said a philosopher. And basically madam, the issues of politics are moral ones, such as you know how to settle so well. You approach the ballot free of the prejudices and traditions that befog the minds of men.

Here are some general rules to guide you in your new part:

Do not run away from political discussions in your home. Listen in.

It's your business to do so. Read political news and views in the newspapers. Don't turn away from an article just because it's politics. School yourself in the issues of the campaign and the qualities of the candidates. Form opinions. As you become more certain of yourself, discuss them with other women and, afterwards, with your male relatives. You will soon discover that politics is not "too much" for you.

## EDITORIALETS

The Edmonton Journal is quite convinced that old parties are dead, which is true, quite true. But old principles are not dead, and when a new party assumes a new name and clothes itself with old principles, it is not going to get very far with the new raiment.

In the country they are counting the wheat before it has been threshed, which is very tempting, but is not always the best. We are not out of the woods, but, oh boy, everything in the country is looking good.

Even against great odds it begins to look like Greece will have Turkey for Thanksgiving.

The only chance a girl gets to wear long dresses now is when her age is reckoned in months.

Men who try laying down the law to their wives probably wonder how Solomon lived so long.

If the Germans find trouble in reducing their army, Foch will have to rehearse some 1918 scenes for their benefit.

It is long since peace was signed and still there are ten able bodied wars raging in different parts of the world as serious before the world million men are engaged in fighting. It takes the old world a long time to quieten down.

We are now getting in sight of the wheat crop and everything is looking very well, with conditions getting better every day. Before the next ten days the merry sound of the harvester will be heard in the land. If everything goes well and nothing goes wrong, the crop should be an exceptionally heavy one.

The Irish situation is showing no improvement of any kind whatever, but is daily growing worse. The British government is not making very much progress in settling the great disturbance and if anything, seems to be losing ground.

The first official move of Arthur Meighen was to see to the destruction

of the Canada wheat board, as many grain dealers desired in opposition to the wishes of practically all of the grain growers in this western country.

The Dominion government has leased certain tar sand rights in the northern part of Alberta which does not indicate that the government has natural resources under the control of the province.

Not many places in western Canada escaped from the rains and the man merely a million dollar rain, is the worst kind of pessimist. It is more like a hundred million dollar rain.

Not in recent years have crops looked so well in this part of the country. It is not safe to count crops before they are harvested, but there is no

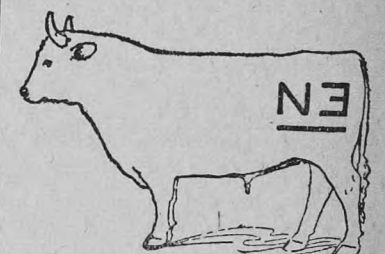

thing to prevent us from talking about it.

The first real bit of work for the Board of Commerce was to permit the sugar refiners to put the price of sugar a couple of cents higher, which may be an indication of what the board intends to adopt as a policy.

No person has even before seen such wonderful vegetable growth as is unfolding itself right before our eyes these growing days. The man who hesitates about entering his own house at night because he is confused by the growth of flowers and vines since he left in the morning feels in some respects like Jack and the bean stalk.

# How To Combat The New Worms Now Appearing

The presence of worms destroying gardens in several parts of the district has led to enquiries from some of the farmers. The worms are supposed to be "Sugar Beet Web Worms" and the following methods of combating them was enclosed in a letter from the government in answer to enquiries.

## METHODS FOR CONTROL OF SUGAR BEET WEB WORMS

This worm is easily identified as it noticeably prefers lambs quarters and destroys it in the grain fields, seldom attacking the crops. It often forms in armies moving in definite direction destroying garden truck if in line march.

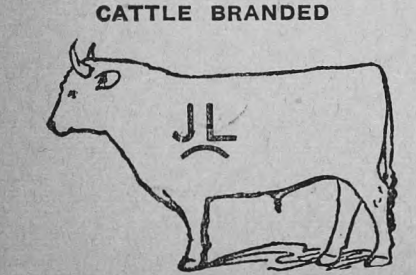

### Method No. 1—To Poison by Spraying Recipe

- 3 pounds Paris green or white arsenic
- 3 pounds slaked lime.
- 80 to 100 gallons of water.

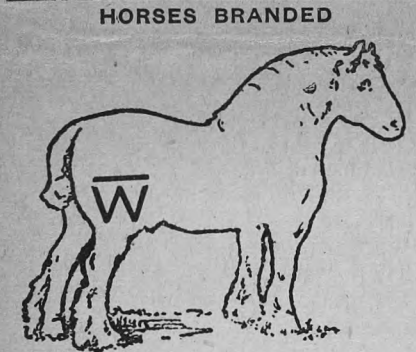

To prepare; add sufficient water to the Paris green to form a thin paste, next stir the lime in the water, and constantly stirring while spraying on the plants infested with the insect. An ordinary plant sprayer fitted with a very fine spraying nozzle should be used.

### Method No. 2—To Poison by Bait Recipe

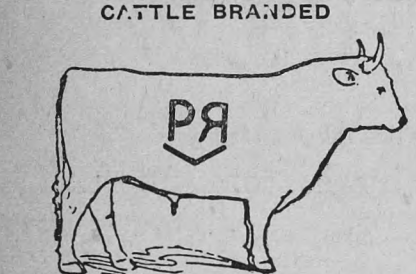

- 20 pounds bran

are the property of A. W. Robinson,  
14-44-1 w4th Chauvin

are the property of Omir Cote,  
Chauvin, Alberta

1 poun Paris green or white arsenic.  
2 quarts molasses  
About 2½ gallons water  
To prepare, thoroughly mix the poison with the bran when dry. In another vessel add the molasses to and mix until every particle of bran is moist. The bait should not be sloppy. This should be spread very thinly on the ground among the plants infected. If the worms are moving in a definite direction it must be spread among the "advance guard" rather than the "rear guard"

### Method No. 3—To Trap

If the web worms are sufficiently concentrated and numerous, and are found to be moving in a definite direction, a trench about six inches wide and six inches deep with perpendicular sides may be dug just ahead of them. Post holes should be dug here and there in the bottom of the trench so that when the worms fall into the trench and move along the bottom, they will fall into the holes. Then they may be killed with a stick or sprayed with herosene.

A teacher was giving a lesson on the circulation of the blood. Trying to make the matter clearer, he said: "Now boys, if I stood on my head the blood, as you know, wuld run int it, and I should turn red in the face"

"Yes, sir," said the boys  
"Now," continued the teacher "what I want to know is this: How is it that while I am standing upright in the ordinary position the blood does not rush into my feet?"

And a little fellow shouted; "Why sir, because yer feet ain't empty."

## OIL IN TAR SANDS

Proposals are already on foot for the reduction of tar sands, known to exist along the Athabasca river. From the sands it is estimated that huge quantities of gasoline, kerosene, naphtha, batumn, tar, lubricating and fuel oils can be secured.

In 1913 Dr. Bosworth, of the Imperial oil research laboratories, estimated that there would be sufficient oils obtained from the Athabasca tar sands to supply the entire world demands for hundreds of years. By an order in council gazetted last week the lands containing these sands were withdrawn form sale, settlement or other disposal, thus leaving them free for development.

## Economic Use Of Fresh Food Supplies

Householders of the province are at present faced with a difficult situation in account of the high cost of certain foid materials. Imported fruit is scarce and is considerably higher this year than usual, and sugar is at present very high and is said to be gong higher. The high cost of these combined materials is going to make home canned fruit very expensive-vegetables which usually make a certain proportion of food supplies for all households are likewise very high, and the prospects are that varied table supplies are going to be harder to secure and harder to pay for than they have been even during the past two or three years.

It would seem more necessary than ever to make economic use of home-grown and wild fresh summer foods. The crop of wild fruit this year is good and is available to country house-holders at least. The knowledge of the handling of fruits of all kinds in modern canning is such that they can be used with very little sugar.

Similar progress has been made in the economical use of fresh vegetable fiods and the practice of saving such desirable garden stuff as young beets, peas, beans, corn, cauliflower, etc. is very rapidly on the increase. There are no doubt many people however who still do not make the best use of these supplies in carrying over into the winter the benefits to be derived from fresh vegetable foods. Excellent use can be made likewise of the practice of drying in the case of fruits particularly.

# PLYMOUTH BINDING TWINE

## Danger From New Diseases Of Wheat

Aside from rust and smut, Canadian wheat crops have been found remarkably free from destructive plant diseases. Recently, however, there has been discovered in the U.S.A. two new diseases, "Flag smut" and "Take all" about the presence of which there has been felt considerable alarm. Now up to the time of writing, Canada has not been invaded by either of these new troubles. But growers should be ever on the lookout for these and any other obscure trouble with which their practice has not made them thoroughly familiar.

"Flag smut," so called because the smut occurs on the flags or leaves of wheat, is easily recognized by the long streak of smutty stripes running

along the leaves. The affected plants also show a peculiar tangle and twisted appearance as if the leaves were wound round the stem. Any suspicious plant should be sent to the Division of Botany, Experimental Farm, Ottawa.

"Take" all," as its name implies, takes all and is probably the most serious wheat disease known with the exception of rust. In certain countries, indeed, it is the more serious, as is emphatically claimed by the practical grower as well as the in the field is not difficult. "Take all" is a root disease spreading from below up the stem for about 1 to 2 inches, discoloring the stem dark brown. The affected plants may be pulled up very easily, their anchorage in the ground is very loose as compared to a sound plant. The affected taking straw and all. Both plants turn yellow and finally die taking straw and all. Both diseases are most likely conveyed by infected seed grain, hence it is most important to "nip these diseases in the bud" and report all suspicious cases at once. The use of foreign wheats for seed is cautioned against; particularly wheat from Australia is under suspicion.

Edinglassie Notes

The long spell of extreme heat was broken on Wednesday night by an electric storm followed by a good shower of rain. We were all pleased to see the rain as it was badly needed.

We received good reports from all who attended the G.W.V.A. picnic at Chauvin on Peace day, July 19th. The good line of sports was thoroughly enjoyed by all, despite the terrific heat.

We understand that a Sunday school was organized here on Sunday, July 25th. May all bear this in mind and assist this worthy work by their presence with their families every Sunday morning. All young people are surely assured a welcome also.

Miss F. Armstrong of the Old Ribstone school spent the week end of last week with our teacher here.

The basket ball equipment has arrived and been installed on the school grounds. The young people met for

practise for the first time on Tuesday evening. These practises will be held occasionally and we are sure it is a profitable and social manner for our young people to get together. The young ladies are organizing a team and we are sure they will soon be able to challenge any other teams in surrounding districts.

Real Good Times  
At Roros Picnic  
(Continued from front page)

The first game being the Edinglassie gentlemen against the Roris gentlemen. The visiting team, although they played well, were no match for the Roros boys. The score being 22 to 2.

Edinglassie ladies then played the Roros ladies and an excellent game it was. At halftime the score was 7 to 8 in favor of the visitors but in the last half Roros went ahead and finished up 13 to 14 in favor of the home team.

Other picked up teams played and afforded considerable amusement to the spectators.

Two picked up teams then played at football and played a very even game the score being 1 to 0 in favor of the winners.

The last but by no means the least important event of the day was a dance in a large bowery built for the occasion.

Excellent music was furnished by Messrs Knutson Gilbertson and Lundberg and a large company of dancers kept the dew from falling on the floor until the sun was beginning to rise again.

Had our picnic been held one day earlier all would have had the opportunities which passed over our picnic grounds on their way from New York to Alaska.

Ribstone Old Timers  
At Thirteenth Picnic  
(Continued from front page)

events cash enclosed, getting an equal share with first and second getting a slight margin over.

The fat mans barrel race was the next event. There were four entries in this. The event was keenly contested and not only witnessed by the wives and sweethearts of the various prospectives, but the whole crowd was now out from the shade trees and formed a circle to watch this race. Jack Crit, started off at a brisk pace and held the lead for about half the distance when he got tangled up in the barrel, anyway he gathered barrel hoops and all there was to it even picking up everything that looked like a piece of a barrel and made his way to the winning post but he was not first. The first prize went to Sulphur Springs.

At 5.30 p.m. the bugle called for gathering for lunch and the members of the committees, 4\$ in number were now in attendance serving. Plenty of willing hands soon came to their relief, to help this staff out, 2000 feet of lumber for tables and benches was sent out by John Philppen for the spread of the visitors; cold drinks ice cream, lemonade, tea, coffee, and cocoa was provided by the Old Timers

6.30 p.m. was the call for the second game of baseball. the Old Timers nine was on the diamond passing a few idle moments by catching ball. The Old Timers took the field in the first inning, and the band struck up the tune "For They Are Jolly Good Fellows." The first two innings no score was made. In the third innings the Old Timers score was 5 to 0 and from this time on to the seventh innings which was the limit of the game, was surely well contested. The Old Timers team could find any and all of pitcher Mathison's choicest offerings of the visitors team. and generally put them safe in the field—The stellar work of the catcher Preston, first base ball man Quam, second base man, C. Mathison, and Fred Laplante short stop, kept down the score, and as to the general opinion of the crowd present, that they had not witnessed any better game of baseball, at least there was no comment that most of the players on both teams when professionals. The score was:

Old Timers 7  
Airlie 2  
The personnel of the team was as follows:  
Bbstone—Hiar, Clifford, Beckley, Eardley, and Cole.  
Airlie—M. Mathison, Preston, Quam, Pierre, K eatley, C. Mathison, Laplante, Murray, Baynham.

8 p.m. The dance is in full swing, opened with 40 couple on the floor to waltz and had the floor space been ample at least another twenty couples would have been waltzing to a tune the band had struck up. "Daises Don't Tell." At this point the dance committee hoisted the distress flag. Committee men were seen coming from all districts to ascertain what obstacles the dance committee had faced. The trouble was that the Municipal Hall was only half the size required to accommodate the dancers. and that a platform size 40 x 40 should be prepared to add more pleasure for the evening.

A car was sent out with a hand-

picked bunch of old settlers to consult trustees and contractors, of the new school which is being built here for permission to try the strength of the foundation sub floor which was laid the early part of the week, and good natured fellows as they are, The dancers moved in on the floor 35 x 35 at 10.30 p.m. and hld it down till 4.45 a.m.

The village was decorated. Arches were built and bunting and streamers were flying in all directions. The motto in the arches was "Welcome to Too much credit cannot be extended to the picnic committee, and their assistants who were here, there, and everywhere, attending to the comforts

and enjoyment of all  
The committee as a body tender thanks to all who helped through the day. Alsi to the members of the U.F.A. band and we considered the success of the day was chiefly to the Old Time nine on the diamond and the above mentioned band.

Good credit is a bank account

#### PASTURE AND FORAGE CROPS

In Central Alberta the question of suitable pasture and forage crop is one of prime importance, and is being studied very closely by both experimentalists and farmers alike. At the Lacombe experimental station a considerable work has been done along these lines and the superintendent of that station, from the results obtained makes the following recommendations.

Since open range is rapidly being taken up, and herd law prevents cattle running at large in some districts, it is advisable for each farmer to make the best use of his own land. By breaking a field and seeding it down to a suitable grass mixture, the pasture carrying capacity of the land can be doubled. Kentucky blue grass and brome grass are most hardy and

suitable for this purpose. They both stand pasturing well, start early in the spring and last well throughout the season.

To supplement grass pastures, fall rye, sown about the end of August, at the rate of 1½ bushels per acre, deserves special mention. It makes satisfactory growth under very arid conditions, provides pasture during the fall and again the following spring, and if the stock are taken off the field about May 24 a grain crop of 20 bushels per acre can generally be harvested. While the market for fall rye is regulated at present by the demand for seed, it can be disposed of to great advantage as grain, providing sufficient is grown in the district to make one or more carloads.

At the Lacombe station, alfalfa is the most promising legume and works in particularly well in a grass mixture. When grown alone it is often difficult to cure. Northern grown seed of Grimm variety is most suitable for Alberta conditions. With it, timothy, western rye grass, Kentucky blue grass, meadow fescue, and brome grass can successfully be grown. In some districts during the past few years, brome is the only grass that has given good yields of hay, but it must be remembered that this grass spreads by creeping root stalks and seeds, making it similar to couch grass as to difficulty in control. However, if it is cut for hay before the seeds form and the sod broken six inches deep in July and kept worked the remainder of the season very little grass will show in the following years crop. Twelve to fourteen pounds of seed per acre are used

When the rainfall is limited, western rye grass also yields well. It should be sown at the rate of 10 or 12 pounds per acre and cut for hay when starting to blossom, otherwise the stalks become very woody

Timothy, seeded at the rate of five or more pounds of good seed per acre, gives a clean hay of good value for horses, but is not very nutritious or satisfactory for cattle, it is affected rather badly by drought

At Lacombe all these grasses can be seeded with a nurse crop of grain with success. Barley is the most suitable cereal, and should be seeded at the rate of a bushel or a bushel and one-half per acre. In drier districts the use of a nurse crop is questionable unless a light seeding of grain has to be used to prevent soil-drifting. In seeding down to any grass the soil should be well supplied with moisture and properly cultivated.

Sweet Clover has been tested as a hog pasture, where its rank growth and peculiar taste did not allow it to show up well. About three tons of hay per acre can be harvested, but,

when it is considered that it is a biennial requiring one year to establish itself and then yielding a crop the second year only, it is doubtful if it is a valuable crop for districts where alfalfa can be grown or good crops of oats and peas or oats alone,

raised for forage purposes

Corn having been found to be an unsuitable crop in Central Alberta has led to the adoption of peas and oats as a forage crop or for ensiling. Two bushels of oats and one bushel of peas are sown to the acre, the crop being out when the oats are in the early dough stage. The crop yields from eight to twelve tons green weight of feed per acre and has fed well in the sheaf or when cut. As ensilage it is the most satisfactory kind so far tested

Sunflowers yielded slightly over 15 tons per acre in a small test conducted last year, but it is necessary to conduct further trials, both as to yields per acre and feeding value before recommending them ahead of peas and oats, especially when such excellent yields of this latter crop can be grown as at the Lacombe experimental station.

Two loads of timothy hay per acre is the average yield being obtained this year on the John Moir farm. A portion of this is cut from a field which has already borne three years, and some from fields seeded each succeeding years. Mr. Moir reports that it is all doing well, but that the second crop portion of the field is giving the best returns

#### THERE WAS A REASON

"I know a man that has been married thirty years and he spends all his evenings at home."

"That's what I call love."

"Oh, no, its paralysis."

#### WORKED BOTH WAYS

Host—"Yes, I get rid of a lot of to my friends, y'know."

Connoisseur "H'm. Get rid of a lot of friends, too, don't you?"

## You can beat the high cost of building

As the local representative of The Home Builders Lumber Co., of Vancouver, B.C., we offer a building service that saves you time, worry and money.

We are right here on the ground—ready to serve you—and we can save you hundreds of dollars on a single house or barn.

**Free Plans**  
furnished for any building shown in our plan book.

**Delivered Prices**  
quoted on lumber, shingles, lath, mouldings, doors, windows, sash, frames, tar and building paper guaranteed sufficient to erect these buildings. No extras to pay. Lumber supplied either Ready-cut by the Fit-Rite Ready-cut System or in the ordinary way, not Ready-cut.

**Lumber Shipped Direct from Mill**  
saving you middlemen's profit—guaranteeing you better quality—furnishing just what you want.

**J. A. Proctor,**  
**Artland .. Sask**

All orders and agreements subject to acceptance and confirmation by the Head Office.

## One Ewe In Seven Years Shows A Profit Of \$192

Original Cost Was \$4.75 And Profit Returned Is Nearly 4,500 Per Cent.

Among the live stock exhibits accompanying the Better Farming train is a very ordinary looking range ewe, with a very extraordinary record, according to J. G. Robertson, live stock commissioner, "The only interest she might excite is perhaps a feeling of wonder how such an animal came to be included in the exhibit at all," said Mr. Robertson. At the rear of her pen, however, Professor Shaw has a placard which gives the reason and shows that if all live stock did as much for their owners as this old ewe, there would be very little necessity for any campaign to attract people "back to the land."

The record shows that in seven

years, during which this ewe was invariably bred to a pure bred ram, she gave returns as follows:

1914, two wethers, sold in 1914 for \$20; 1915, two wethers sold in 1915 for \$30; 1916, two two-shear sold in 1916 for \$60; 1917, two three-shear, valued in 1920 at \$63; 1918, one ewe-shear and lamb, which lambed in 1920 valued at \$40; 1919, two one-shear wethers, valued at \$50; 1920, one wether lamb, \$10.

"In the seven years," said Mr. Robertson, "this ewe presented her owner with twelve lambs, valued at \$273. In addition there were seventeen fleeces, value \$83.60, making a total return of \$356.60. The original cost of the ewe was \$4.75, and maintenance has been conservatively estimated at \$159.60, so that she has made a net profit for her owner of no less than \$192.25

### CHAUVIN AGRICULTURAL SOCIETY

#### Public Notice

PUBLIC NOTICE is hereby given that owing to the scarcity of labor, and to the severity of flies, the enforcement or non-enforcement of rule 16, at the Chauvin Fair, Friday August 13th will be left to the discretion of the directors in charge.

Rule 16 reads as follows: Prize winning horses and cattle shall be paraded at four o'clock, wearing their respective colors. Prizes will not be paid unless prize winning horses and cattle are so paraded.

P. H. PERRY, Sec-Treas.

### Our Weekly Sermon

By REV. MITCHELSON

Text St. John 17:15—"I pray not that Thou shouldest take them out of the world, but that Thou shouldest keep them from the evil one."

What a green patch of grass in the desert is to the traveller.

The prayer of our Lord in this chapter is one of the most sacred and sweetest spots in the Bible.

The circumstances that surround this incident make it very interesting, the prayer was offered up after he had kept his first Communion with his disciples. "With desire I have desired to eat this passover with you, before I suffer" One can see right in his heart the concern about those who join in it that they might be kept or may be kept from dishonor to His Name or their own profession.

Mark, He uttered it when His enemies were at His heels thirsting for His blood. His thoughts penetrate into the heavenlies and looks upon the face of His Father. "I pray for those which Thou hast given me for they are Thine and all mine are Thine and Thine are mine." Keep through Thine own name those whom Thou hast given me that they may be as we are." He looks unto His Father's face and says "I am no more in the world but these are in the world, and I am come to Thee" Neither pray I which shall believe on me through their word" And other sheep I have which are not of this fold, them also I must bring, and they shall hear my voice; and there shall be one fold and one shepherd." So faith cometh by hearing, and hearing by the word of God.

This petition which our subject is based upon may be applied to our present needs and circumstances. "I pray not that Thou shouldest take them out of the world, but that Thou shouldest keep them from the evil one" Now let us seek to find out what our Lord asks for his people, and why he asks for this?

1 What our Lord asks for his people. Luther gives an answer to the question—They are not to depart from the world with me, for I have more work for them to do—To wit, that they increase my little host. We are kept in the world for three things To engage in His business; we are to endure its trials with patience and be exposed to its temptations. These are the things we have to face, we have to face them when we go forth to do business in the world.

But our Lord does not send us without being well equipped for duty. We can have the "Breastplate of Right—Shield of Faith", the putting Jesus first in all things". "The Sword of the Spirit" which is the Word of God have this weapon always ready to defend ourselves.

There are some people and good christian people who say to live right the activities of life and isolate our lives in cell or desert. Such an act is in direct opposition to the mind and will and example of Christ and to the spirit if the Word of God. "Mary sat at Jesus feet," she could not always sit there, so to be able to be touched by His presence and we to touch Him, He went home to His Father, and the Holy Spirit The Comforter has come whom we can touch every hour of the day. The Lord Jesus Christ while he was on the earth mingled with men of all conditions of life and touched them in every relation of theirs.

If ye then be risen with Christ seek those things which are above where Christ sitteth at the right hand of God. Character must have backbone and to have that grow in our life we must cultivate a peace in us that cannot be moved by earth or hell. And to be strong and of good courage that will not fear before any work life will bring to us. The secret how to obtain these is to have within our life deep centred "Jesus Christ the eternal changeless, omnipotent Son of God".

2 We ask the reason why Jesus asks that His friends should not be taken from the world. Moses was prepared for his great life work of delivering the children of Israel out them to the river Jordan. Joshua was appointed to take them into the land

of Canaan. No man is asked to be a Christian and give up business if it is an honest occupation. On the other hand we are asked "to be quiet and mind our own business" and again to be "diligent in business, fervent in spirit, serving the Lord" The Lord Himself was a carpenter and the sole support of the home, Joseph being dead years before He began His maker and rejoiced that he was not a burden upon any.

To be kept in the world and protected from evils is to suffer under its trials. Peter says "Think it not strange concerning the fiery trials which is to try you as though some strange thing happened unto you".

That which marks most the christian man in trials is his optimism, hopefulness, patience in it all. There is

a hidden power in religion which can turn the bitterest things in this world into sweetness, God has a work for each one to do. The christian people are the salt of the earth, distributed over its surface. They are the light of the world. Likened to a house set upon a hill that cannot be hid.

If the world is to be christianized it must be done by their influence working and moving among society and this earth which has witnessed the sufferings of the eternal Son of God will be also the scene of His final triumph and completed victory and possession. Every sinner that surrenders to Christ. The song of Victory is heralded by the angels. He searches for the lost sheep and when he finds it He carries it in His bosom. "He gives His sheep eternal life".

## Binders Binders

### McCormick Deering

There is a possibility, at present, that there will be a **SHORTAGE OF BINDERS** in Western Canada, depending, of course, upon the crop conditions at the time of harvest. It is, therefore, very necessary that we have our orders in early, to be sure that we get enough binders. Let us have your orders in now. If you should get hailed out, or frozen, we will not ask you to take the binder.

ply N. Eddleston., 14-45-3-W. 4th  
Edgerton, P. O. Alberta.

## Crop Prospects

Crops have been making good pro-  
gress during the past week. During  
this period the weather has been very  
warm and dry. The dry spell was  
broken on Monday evening by an  
electrical storm of no little violence  
accompanied by wind and heavy rain.  
Some hail fell in parts of the disrrict.  
Particulars of damage are coming in  
very slowly, and do not appear to be  
very serious.

A. P. Power, A RRider, S. StJean,  
Emil Cote, Omer Cote, and E. Lambert  
are reported to have suffered some  
losses.

The damage in each of these cases  
appears to be very light.

## Edinglassie U. F. A.

Saturday, July 31st the following  
meeting was held at 2.30; A. E. Pit-  
man in the chair.

Minutes of previous meeting were  
read and on motion of W. Petrie—J.  
Duncan were adopted as read.

Moved Reinhart—Petrie that we  
join Live Stock Association .Mr. Rein-  
hart knldy offered the old Evan's  
house for use in meeting and it was  
decided to meet there on August 20th  
at 7.30 p.m. A vote of thanks was  
tendered to Mr. Reinhart for use of  
same.

18 members were enrolled. Anyone  
wanting to join kindlyattend or get iv  
touch with P. H. Perry, Secretary, or  
E. A. Pitman, President.

## Ribstone U. F. A.

Regular monthly meeting of Rib-  
stone U.F.A. July 21. opened by pres-  
dent. after which the minutes of last  
meeting were read and adopted.

Official correspondence was then  
read. Discussion on twine following.  
After the subject was well dscussed  
it was thought best that the direct-  
ors secure as many orders as possible  
and report Monday evening August  
2nd Moved by J. Dallyn—A. W. Bur-  
ton, that secretary wire Central Of-  
fice at Calgary regarding price on  
twine, time of delivery, etc. Also  
phone Chauvin, see R. J. Wilde, re  
prices. Carried.

G. Pritchett, Artland, Sask.

The only beast we ought to beat

**THE MUNICIPAL DISTRICT OF**  
**RIBSTONE, NO 421**

## Destruction Of Noxious Weeds

### SPECIAL NOTICE

Will Resident Owners of lands  
within this Municipal District please  
report all cases of noxious weeds to  
the Municipal Office; so that the at-  
tention of the Weed Inspector for the  
locality concerned may be directed to  
same.

Rumours are heard as to "weeds or  
mustard on such and such a farm;"  
but no one seems to think it worth  
while to report the fact to the pro-  
per quarter. Only four reports hav  
been entered during the season so  
far. All reports should be made to  
the Secretary, who will forward same  
to the Councillor for the district af-  
fected. After inspection has been  
made, the notice is sent out to the  
owner of the land where the weeds  
are found.

signed: T. H. SAUL, Sec.-Treas

**MUNICIPAL DISTRICT OF**  
**MERTON, NO. 451**

## Brand Book Notice

Ratepayers are requested to send  
in their Horse and Cattle Brands to  
the Secretary's office before August  
7th; for publicatiin in the Brand Book

to be issued. Look over your brand  
book and if your Brand is not in, or  
incorrectly described, notify the Sec-  
retary.

L. B. NICHOLSON, Sec-teas.

**MUNICIPAL DISTRICT OF**  
**RIBSTONE, NO. 421.**

## Tax Recovery Act TAX SALE

**SALE OF LANDS IN THE MUNI-**  
**CIPAL DISTRICT OF RIBSTONE**  
**No. 412**

NOTICE IS HEREBY GIVEN that  
certain lands in the Municipal District  
of Ribstone, No. 421 will be offered  
for sale under the provisions of the  
Tax Receovery Act for arreares of  
taxes and costs on a day and date to  
be fixed at the next meeting of the  
Council.

THE LIST OF LANDS IS NOW  
IN COURSE OF PREPARATION,  
and said list will include all lands in  
arrears of taxes up to December 31st  
1919.

Said list will include all penalties  
up to July 1st 1920.

LANDS in respect of which arrears  
are paid on or before the list is post-  
ed will be struck out; after which a  
certificate will be given. It is pro-  
vided by the Act that it shall not be  
necessary for the collector to ascer-  
tain whether there are any goods up-  
on said lands which might be dis-  
trained upon before proceeding to  
sell such lands.

Dated at Chauvin this 30th day of  
June A.D. 1920.

T. H. SAUL, Secy.-Treas.
